Tech South East is pleased to invite you to join us in a workshop with Richard Bendis, a global pioneer in innovation policy and the role of intermediary organizations. Bendis will share his perspectives on the nature and role of contemporary innovation intermediaries, their relevance in successful innovation systems and how technology-based businesses and entrepreneurs can benefit from their support. Hear from leaders of successful innovation intermediaries as we examine key policy issues such as:

- *Government's role in supporting/financing Innovation intermediaries and public policy implications*
- *Access to capital and the facilitating role of intermediaries*
- *Developing Human resources for the Knowledge Economy*
- *Intermediary collaboration.*

*Tech South East would like to thank our supporting partners for the
Innovation Intermediary Workshop:*
